Designing since 2003
Developing since 2010

Guiding startups and established enterprises through diverse creative and technical services. Self-taught and proficient in working with both UI and server-side logic of web apps and iOS and Android systems. As an ROI-focused contractor, I am consistently dedicated to delivering precise solutions to businesses within specified timelines. Expert in fostering screen share collaboration with business leaders to fulfill stringent timelines and optimize cost-effectiveness through various methods, eliminating the necessity for a protracted salary commitment. Track record of satisfying over 1,000 worldwide clients in the past two decades in my primary languages of English, Spanish and learning fluent Portuguese in the last 5 years.
